

Fulton Residence

Rue Fulton, 19 1000 Brussels

F-3 Flamenco

Located on the ground floor directly at the entrance of the building, this flat has a lot of incoming daylight, thanks to the high window with view on the street.

With its high ceilings, decorative mouldings, this flat combines perfectly the charms of an old townhouse and the modern comfort for a small, very convenient flat. The choice of materials is done with taste, combining massive wooden parquet and marble perfectly. The various red tints provide a multicoloured ambience, with warm hues inspired directly from the orient.

The main room is furnished with taste, with a relaxing sofa, TV corner, and a computer desk. The kitchenette is small but very convenient and is equipped with a table and highly qualitative leather chairs. The sleeping corner is located on the mezzanine and consists of a double bed. There is a lot of space in the ward robes. The bathroom consists of a shower, wash hand basin and toilet.
