

Fulton Residence

Rue Fulton, 19 1000 Brussels

F-4 Safari

Located on the elevated ground floor at the back of the building, noises from the city are reduced to a minimum.

A calming atmosphere in linen with a penchant for ethnic chic. Browns combine perfectly. This flat provides quite some space for one or two persons. The high ceilings are lightened with decorative lamps. On the mezzanine, one will find a double bed and wardrobe. The massive parquet and wooden doors provide a warm feeling. The kitchen is new and is very spacious, well equipped and there is enough space for taking meals there. It has a very convenient access to the hall, very useful when returning with groceries.

The main room has a large window with view on a blind wall, which provides a feeling of calm. The TV corner is equipped with a comfortable sofa. In the cupboards there's plenty of space for personal items. Exceptionnally, a single bed can be added in the living-room.
