

Fulton Residence

Rue Fulton, 19 1000 Brussels

F-8 Fossil

Located on the third floor, directly under the roof, this quiet apartment has massive parquet everywhere, except in the kitchen and bathroom.

With its wooden interior, it looks like a doll house. The kitchen is well sized and good equipped. The bathroom has a shower, wash-hand basin and toilet. Via a ladder, it is also possible to sleep two young people in a small mezzanine, on the top of the building.

The bedroom consists of twin beds and the living room is convenient with its TV corner, leather sofa and dining table.

There is a lot of space for personal belongings in all the built-in closets. This flat is often chosen for extended stays in Brussels.
